Dear Mamma Lena,

For the last 28 years since my arrival in Australia, I have been aware of all the good things you have done for the Italian migrants. I also learned through radio and newspaper advertising how much you are respected and liked, in both Italian and Australian communities.

But not until last week when you and your husband Dino dedicated those lovely books to my family, I became aware of the great honors that have been awarded to you.

You are a great lady, and I feel indeed honored and privileged to work together with you in this quest. I also feel lucky to be your friend

Yours sincerely
Jane Torrissi
