Dear Ms Gustin,

Our Company is producing a series of documentaries focusing on successful women of migrant background. Our goal is to expose and discuss what it means to be both a woman and a migrant in Australia, the long struggle and determination of those who have been able to build a successful career in spite of all prejudices and difficulties.

We would be pleased and honoured if you accepted to become the subject of one of our episodes. For this purpose we kindly ask you to grant us an interview.
