Dear Lena,

I took the liberty to call you "Dear Lena" and hope that I did not hurt your feelings. As you will gather by my present letter I am Emily's brother. I was indeed delighted to meet you again on the Gold Coast and enjoyed immensely your charming company. It was pity that you both could not stay longer, the V.I.P., room with all facilities was planned to be put at your disposal, we do hope that you will be able to stop much longer on the Coast as we would like to enjoy your company next trip.

My sister tells me that a programme will be discussed with you in the not too distant future regarding your future trip, let's hope that your holidays will coincide with Renzo and Emily.

Your Station 2 KY is heard on the Gold Coast, consequently your programme is quite clear sometimes, but at certain stages we feel that it goes off for a short period due to the bad weather up here, otherwise the advertisement regarding "CAPRI" Furniture Shop in Annandale was quite clear and the same applies to another advertisement in relation to children's wear, we were listening to your soft and charming voice, last thursday night after 9 p.m.

We do hope that your trip to Sydney went smoothly and that you did not feel very tired going back to work the following morning.

Please note the "SOUVENIR" Envelope, according to the P.M.G., it should be kept with your precious papers.

Our kind regards to Mr. Gustin.

Hoping to see you all, soon.

Sincerely, WILLIAM SCHMIDT

P.S. Sincere regards from Edith, she has already improved with the flu, at this stage she needs another week to re-establish herself.
