

'Wagga Wagga' Sh.  
Yalgoo. 6635.  
28th December 78.

My Dear Jerry,

How  
delighted I was to  
receive and read your  
book. Very many  
thanks for the sweet  
thought it was a  
lovely surprise.

What an  
inspiration and hope

my 16 year old has  
been sick for some  
weeks after two trips  
to the doctor (156 miles  
away) we discovered  
she has acute bronchitis  
and glandular fever.

Angela my 20 year old  
has had a really virus  
for 10 days - neither  
could eat Christmas  
dinner!

The heat has

not in and we can  
expect little relief  
until the end of March.  
How I hate it!

Look forward  
to seeing you in  
February. Take care  
until then.

Send regards,  
Sue

you must be <sup>it</sup> to all  
migrants - men and  
women. Thank  
goodness someone had  
the faith and  
ability to write  
you this.

Let me add  
my congratulations  
and thanks for what  
you have given  
Australia.

Our Christmas  
was rather dreary
