Dear Valerie,

Thanks for your letter and for the information given to me regarding Mrs. Zivillica.

I know she needs to communicate with some friends to help solve her family problems. I do write her from time to time, but she doesn't take any notice of what I say to her. She would like me to visit her in Robinvale, but for me it's impossible to make such a long journey.

She has some Italian friends living near by, but she does not listen to their suggestions, ~~she's~~ she's really mentally sick but she is scared to see a doctor because she does not want to be placed in hospital. Probably if someone could talk to her husband or to her daughter Lucia, they may be able to convince her to consult a doctor.

I will write to Mrs. Zivillica again soon, a nice long letter, but I expect no reaction from her.

I do hope Mrs. Barbara Nieman will go and visit her soon.

Hoping to see you in Sydney in November, please accept my kind regards and best wishes.

MAMMA LENA.
