Dear Lady Lena Gustin

Our Giovanni has informed us that you wish the Bank to buy some copies of your Biography Book, profits from the sale being credited to the Sorella Radio Welfare Funds.

We had the opportunity to read the book and the story of your life has really amazed us. We are really proud in knowing you.

We have duly considered your proposition regarding purchasing the book and the good cause of its profit. As our customers in the Migrant Information Centres are mainly people with very little English and your book is written in English, we would not be able to have it circulated to our Centres for the purpose of migrant reading. Therefore we deeply regret having to decline the offer.

Yours faithfully
