Dear Mr and Mrs Gustin,

Thank you very much indeed for forwarding a copy of your book 70 Anni di Ricordi in Due Mondi. We will be delighted to add it to our collection.

We have found that many of the people using the collection seek information about social issues such as what it was like to live here, what problems did new arrivals experience, women in the labour force, what welfare organisations or support systems existed? There are hundreds of different issues but what we feel encouraged about is that many people are researching these topics particularly young students - VCE level and tertiary level. We aim to provide a specialist collection within a larger library network which will reflect the needs of users.

Your book will be an interesting source for personal recollections, photographs, newspaper items, etc. etc.

Thank you again most sincerely,

Susan Jennison
